Cascade

A cascade of smooth, crystal clear, hand worked glass bulbs lends this Diletto its name. More than just a cascade, the waves grow larger from one end to the other along a carefully measured curve. Cascade is a time tested design that has been part of the Love Style collection since the very beginning, and is likely to be there until the end of time. It is a favorite among those new to Love Style Dilettos for its simplicity, beauty, and dare we say, its overwhelming accolades.

Cascade really must be experienced externally first, especially when gently warmed. It caresses the body with precisely the right curve to keep contact so that you experience the gentle bump, bump, bump in all the right spots. Start with the smaller tip for a very soft introduction to your inner sanctum. As Cascade moves slowly deeper and deeper, the increasing swell of the design persistently adds to the fullness that was not there a moment ago. And as each ridge passes within, the exquisite feeling of penetration repeats itself with growing intensity. When you want to be sure the G-Spot gets all the attention it deserves, turn to the largest bulb for measured size and perfect shape. Whether for self play, or with a partner, Cascade finds the G-Spot every time.

Weight: 11.2 oz (320 grams)
Length: 8.75 in (22.2 cm)
Circ. (min/max): 3.25 in (8 cm) / 5 in (12.5 cm)
MSRP: \$109.99 USD / CAD

Agua

Agua is a complex creature with soft and silky smooth parts contrasted by twisted texture designed to ignite nerves as only a Love Style Diletto can. Most view the four adjoined bulbs as the 'business' end of the toy. The subtle curve created by the bulbs reminds us of bodily shape. Follow the large S bend to another shaft that has been twisted on itself to create a diamond brilliance then punctuated by a subtle stop by way of a bulb at the end. Looking at this Diletto presented on its stand, some see a lover knelt in expectation.

Weight: 10.7 oz (305 grams) - Length: 10 in (25.4 cm)
Circ. (min/max): 3.5 in (8.9 cm) / 4 in (10.2 cm)
MSRP: \$129.99 USD / CAD

Gemelli

Four uniform, crystal clear, in line bulbs mark the introduction to Gemelli. The shaft, never uniform in size, begins small from the spheres and immediately swells to the widest part of the Diletto. The weighty middle tapers back quickly to a shaft with a subtle curve. The finishing orb dances with dichroic scatter inside set against brilliant blue, beautiful to see from the side, but absolutely stunning when viewed from the end. When asked 'is this a his or her piece?' the answer is a resounding YES. Gemelli is a remarkably versatile Diletto no matter how it is enjoyed.

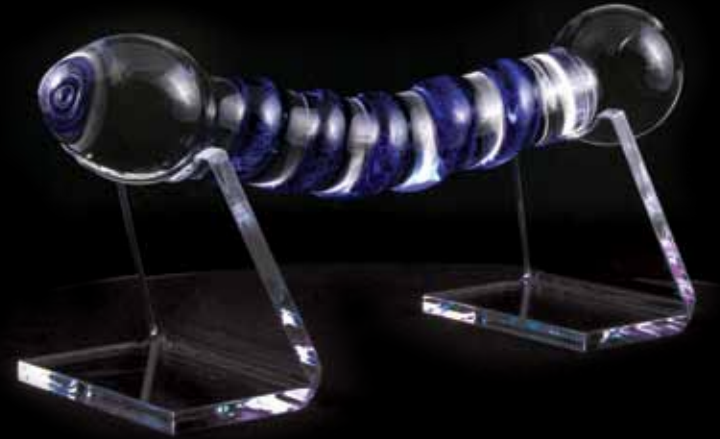

Weight: 11.2 oz (315 grams) - Length: 11 in (27.9 cm)
Circ. (min/max): 2.75 in (7 cm) / 4.75 in (12.1 cm)
MSRP: \$139.99 USD / CAD

Galassia

The curved shaft on this Diletto features four wraps of seducing blue dichroic glass melded into the clear Borosilicate core to product a gentle symmetrical texture. The brilliant clear and blue orb on the end of Galassia shows off the second dichroic feature with scatter flecks against a sea blue background. While this Diletto's form seems simple, know that this is one of the best G-Spot instruments you will ever find, ESPECIALLY in the hands of another.

Weight: 8.4 oz (240 grams) - Length: 7.25 in (18.4 cm)
Circ. (min/max): 3.25 in (8.3 cm) / 5.25 in (13.3 cm)
MSRP: \$149.99 USD / CAD

Mera

Classic in styling, but in the now for design and functionality, Mera is a 'staple' Glass Diletto done the Love Style way. The clear teardrop crown has a silky smooth tip with a subtle v-groove on the underside. The shaft that follows is ideally curved and wrapped 5 times round with Love Style's signature blue dichroic ridge that is gentle to the eyes and gentler to the touch. Mera finishes with a perfect round G-Spot sphere. All hand styled from solid Borosilicate, Mera is stunning in its contrast of simplicity and sophistication.

Weight: 12 oz (340 grams) - Length: 9.5 in (24.1 cm)
Circ. (min/max): 3.5 in (8.9 cm) / 5.25 in (13.3 cm)
MSRP: \$149.99 USD / CAD

Lotus

Our beautiful Lotus resembles its masculine counterpart, but feels nothing of the sort, and then again more so at times. The familiar shaped head gives way to a number of small ridges, then a weighty, thicker middle, all hand worked from solid, clear Borosilicate. The silky smooth body tapers to a smaller end curved slightly up and finishes with a perfect flower infused globe.

In play, Lotus' bulbous head may feel familiar, but is highly exaggerated due to its rigid ways and significant relief around the top back edge. Pressing a little deeper, the broader, yet very smooth body, accentuates the feelings of penetration and fullness without any friction or resistance at all. A slight tip upwards rests the flatter top of the large end against the G-Spot for gentle pressure play. But it's not over. Turn Lotus around to let the flower part yours and accurately play the G-Spot with that bulb, or gently provide the signature penetrative popping sensations that so many seek from Love Style Dilettos.

Weight: 11.6 oz (330 grams)
Length: 9 in (22.9 cm)
Circ. (min/max): 2.75 in (7 cm) / 4.75 in (12.1 cm)
MSRP: \$119.99 USD / CAD

Aphrodite

Aphrodite, Greek Goddess of Rapture, lives up to her name with a piece long a favorite of Love Style enthusiasts. Her diamond twist shaft is rightly curved and deserves the expectation it elicits. Seeming almost like a completely different toy, she then explodes into 4 tightly pressed swells followed by a beautiful flower surrounded in a perfect shimmering orb of solid glass. Aphrodite's unique design challenges her lovers to enjoy her in as many ways as possible, and she will deliver in every way they try.

The diamond texture provides shivers of anticipation as she tingles and teases your most sensitive outer regions. But don't forget to draw the other end, all those beautiful bumps, tight against your body as well as they deliver a repeated yet gentle whump, whump, whump right where you need it. The diamond texture stimulates within as you take advantage of the curve to target the right spots...or spot. When you become more eager to press the point, let Aphrodite's flower target that spot with a broader surface and bigger sensation. Or...press it deep, and slowly, to experience each swell working against your body's natural desire to press, delivering you to heights only imagined by the like of Aphrodite.

Weight: 12 oz (340 grams)

Length: 9 in (22.9 cm)

Circ. (min/max): 3.25 in (8.3 cm) / 5 in (12.7 cm)

MSRP: \$119.99 USD / CAD

Nymph

Beautiful Nymph stirs the body and mind in so many ways. At her core is a sensuous curve with a hand worked diamond twist texture that makes light dance. The tapered crown hides a V groove below, visible only upon close inspection. Dual, off sized, spherical bulbs adorn the other end of Nymph and finish with a stunning glass implosion flower. Hand made from solid Borosilicate, Nymph calls out to be held, caressed, and adored by those new to Love Style Glass Dilettos, and to professed collectors.

Weight: 10.4 oz (290 grams) - Length: 9 in (22.9 cm)
Circ. (min/max): 3.5 in (8.9 cm) / 5 in (12.7 cm)
MSRP: \$119.99 USD / CAD

Vergine

Vergine presents innocence and passionate fire in one Diletto, defined only by the end favored. The 'innocent' view presents a gentle, straight rod of clear Borosilicate accented 3/4 of the way up the shaft by a smooth bulb. Past the bulb the smooth continues to end at a broad textured bulb for easy handling. Those seeking fire see the 'handle' for what it is, a beautiful, dichroic blue infused bulb with an all over texture that will not let up. Vergine's extreme duality is what makes this design so desirable.

Weight: 9.6 oz (275 grams) - Length: 8.25 in (21 cm)
Circ. (min/max): 3.25 in (8.3 cm) / 5.25 in (13.3 cm)
MSRP: \$119.99 USD / CAD

Fenice

Fenice is hand crafted from crystalline Borosilicate as the ultimate G-Spot Diletto with a twist. The familiar end begins with teardrop crown a little more than 1 1/2 inches wide and completely smooth. The 1-inch shaft that follows is uniformly curved suggesting that Fenice can be managed from either end and remain intimately familiar. The teardrop on the other end is of similar size but offers a gentle texture formed by twisted groves that surround the entire head. This touch dramatically expands the experience from this Diletto.

Weight: 10.8 oz (305 grams) - Length: 10 in (25.4 cm)
Circ. (min/max): 3 in (7.6 cm) / 5 in (12.7 cm)
MSRP: \$109.99 USD / CAD

Ira

Ira resembles anything but what it is. Solid, crystal clear, hand worked Borosilicate glass that begs to be touched, but which end first? The 1 3/4" bulb is accented with soft protruding nodules, alone captivating, but together suggesting some serious stimulation. Ira narrows, then immediately swells again with a silky smooth bulge, then narrows once more to a longer, straight wand. It all ends with a distinct, erect arc. But again, which end first?

Weight: 12.4 oz (350 grams) - Length: 9 in (22.9 cm)
Circ. (min/max): 3.25 in (8.3 cm) / 5.5 in (14 cm)
MSRP: \$109.99 USD / CAD

Forte

Forte was created specifically for those Glass Diletto connoisseurs who seek more... much more. Hand styled from over 1 1/4 pounds (570 grams) of solid Borosilicate, Forte leaves no doubt as to its presence. The tapered head boasts a circumference of over 6 full inches and a diameter of almost 2 full inches, the sight of which is known to cause the most delightful trembling. The core shrinks back to a diameter of 1 1/4 inches before swelling out two more times with inline orbs slightly smaller than the crown. The last globe, also with a diameter of almost 2 inches, reminds one of an ocean inspired snow globe frozen in time with a dichroic burst set against blue.

Trembling anticipation will rise as Forte begins its first motions to penetrate. Size leads to delightful resistance, while the slick, frictionless Forte presses on unabated. The passing of the crown to deep within delivers huge gasps as the body relaxes a little to squeeze on the slightly narrower shaft. And then again as you press on to experience the delightful pressure from one of the inline orbs. Turn Forte about and the ocean blue globe can find that spot with ease... until you give into desire and chose to plunge deeper once more. Forte is meant to quench a desire for something greater, but most often simply fuels that desire even further.

Weight: 20.2 oz (570 grams) - Length: 10.5 in (26.7 cm)
Circ. (min/max): 4 in (10.2 cm) / 6.25 in (15.9 cm)
MSRP: \$229.99 USD / CAD

Dea

Art, beauty, grace, elegance are just a few words that barely do justice to Dea. This stunning Diletto is completely smooth from end to end with only shape to define it. The slightly tapered tip narrows to a varying width shaft formed to a gentle curve. As you trace your fingers along Dea you can feel the middle swell out to the same size as the tip, then slim again as you approach the end. Dea finishes with a solid sphere slightly over 1.6 inches in diameter. From tip to tip Dea's solid, hand worked, clear Borosilicate core features a breath taking blue / teal twisted dichroic ribbon. Every view of this Diletto stirs the imagination and expectation.

Smooth means silky, and silky feels luxurious, especially when warmed. No matter where you touch, the body will respond and want. When this frictionless work of art begins to disappear within and the swollen mid shaft presses its point, lost will be any words to describe feeling. In time, slide Dea out, but feel no remorse as now the round end can now seek out a wonderful target, hold gentle pressure, and rock softly for as long as needed. When restraint fails, penetration, and especially slow withdraw with the larger sphere, over and over can help to define euphoria...

Weight: 10.8 oz (305 grams) - Length: 9.75 in (24.8 cm)
Circ. (min/max): 3 in (7.6 cm) / 5.25 in (13.3 cm)
MSRP: \$189.99 USD / CAD

Zion

Zion is among the most impressive of Love Style's Glass Dilettos - stunningly beautiful, firm and weighty, with shapes and textures and curves that make your heart race. Zion is made from more than 17oz (500 grams) of solid, crystal clear Borosilicate glass. The curved end is infused with a blue / silver swirl of dichroic flake that reflects green and teals in certain lights. The effect is mesmerizing. The straight end is enhanced by an exquisite dichroic blue ribbon wrapped 3 times around the shaft. The middle hilt accented by two large bulbs is absolutely clear, which allows it to pick up the color from the dichroic infusion or the dichroic wrap, depending upon how the light strikes it.

The Zion Diletto is just as stunning when it touches you, inside or out. The wrap on the shaft provides a very soft, consistent texture that teases externally and satisfies internally. The curve on the other end hugs against your sensual shape for full contact, especially erotic when playing with a warmed toy. That same curve is sure to find your G-Spot wherever it may hide. But Zion saves the best for last... those large bulbs (normally found on the END of our Dilettos) are way down the shaft which means you experience full, deep penetration before the resistance of those bulbs is experienced over and over as slowly as you can bear.

Weight: 17.6 oz (500 grams)
Length: 12.5 in (31.8 cm)
Circ. (min/max): 3.5 in (8.9 cm) / 5.5 in (14 cm)
MSRP: \$219.99 USD / CAD

Desi

Desi plays with the light and the senses in ways that inspire you to expect more from your erotic play things. Desi makes a warm first impression with a nearly 5 inch slightly curved shaft, embraced by a blue / silver dichroic wrap. Beyond the shaft, 3 bulbs, each increasing in size extend the piece to its full 8 1/2 inches. The final bulb, a stunning orb holds the depths of the universe within presenting an endless field of stars against a rich blue background. Desi takes your breath away from first view... until you arrive at first touch.

Warm Desi for an extra treat before you slide her warm, smooth body against yours. While the dichroic wrap is smooth it does provide some sense of texture most definitely experienced where you desire it most. Pressing Desi within proves that her subtle texture is wonderfully effective as nerve endings ignite. Her length and slight curve allow you to reach any pressure point within, G-Spot or other. But she is hardly done. Turn Desi about and let that cosmic bulb charm the G-Spot with slow rocking and gentle pressure. Deeper penetration reveals the allure of the multiple swells as the gentle motion delivers repeated, firm thuds to make you feel like you were being taken again and again. Desi is a perfect piece for any Diletto Virgin, and will certainly become part of any serious collection.

Weight: 11 oz (310 grams)
Length: 8.5 in (21.6 cm)
Circ. (min/max): 3.5 in (8.9 cm) / 5 in (12.7 cm)
MSRP: \$159.99 USD / CAD

Aquario

Aquario looks more like a stunning charm than a Diletto, but its versatility and entirely slick nature have earned it a place in countless collections. The elongated tip quickly swells out to a touch more than 1.4 inches wide, narrows slightly, then swells out again momentarily before slimming right down to .75 inches and ending in a soft bulb. The offset 'S' curve and the crystal clear Borosilicate from which Aquario is fashioned, are what lend so much character and versatility to this Diletto.

Weight: 10.4 oz (295 grams) - Length: 10.5 in (26.7 cm)
Circ. (min/max): 2.5 in (6.4 cm) / 4.5 in (11.4 cm)
MSRP: \$109.99 USD / CAD

Liscio

Liscio is a gentle prince to anyone who enjoys the absolutely smooth, silkiness of Glass Diletto's, and yet he also has a strong presence that commands respect and chills. Liscio's offset reverse teardrop head presents a most intriguing shape surrounding a dichroic star field set against brilliant blue. Two crystal clear compressed swells similar in diameter to the teardrop follow immediately, then swing away in a long tapering shaft featuring a slight curve and a bulb on the end. Do not mistake that end for a handle as it is actually the introduction to what Liscio can deliver.

Weight: 13 oz (370 grams) - Length: 10 in (25.4 cm)
Circ. (min/max): 3 in (7.6 cm) / 5.25 in (13.3 cm)
MSRP: \$139.99 USD / CAD

Weight: 15.4 oz (435 grams)

Length: 13.2 in (33 cm)

Circ. (min/max): 3 in (7.6 cm) / 5 in (12.7 cm)

MSRP: \$219.99 USD / CAD

Scorpi

Scorpi's intense beauty is exceeded only by the variety of experiences this dual personality Diletto can deliver. One crystal clear end begins with a smooth and subtle teardrop head followed by a gently curved shaft. The length is accented by bumps all along until it meets the center hilt. The second crown begins crystal clear to reveal a top-heavy relief surrounding a smooth globe. Scorpi's beauty then explodes with intense blues and teals of filigrana style twisted dichroic ribbon that run the length of an absolutely smooth perfectly curved shaft. "Which way to start, which to end?" is a question one can only answer in the moment of zeal that Scorpi kindles with first look, first touch.

Against the body the gentle texture of the bumped shaft is exquisite. Then again, the simple caress of smooth combined with a little warming can drive desire to extremes. Inside, the texture fires sensitive folds and shallow spots to react with shivers and beg for deeper which Scorpi delivers with ease. Pull back and tip up to let that smooth bulb press the G-Spot. Ready for the most intense feelings of penetration from the smallest of motions? Turn Scorpi about to press and withdraw oh so gently as that back tapered ridge around the crown amplifies the sensations to a level you would never expect. In the hands of a patient lover who knows that slower is the key to torturous euphoria, Scorpi will help you to forget your name.

Piccante

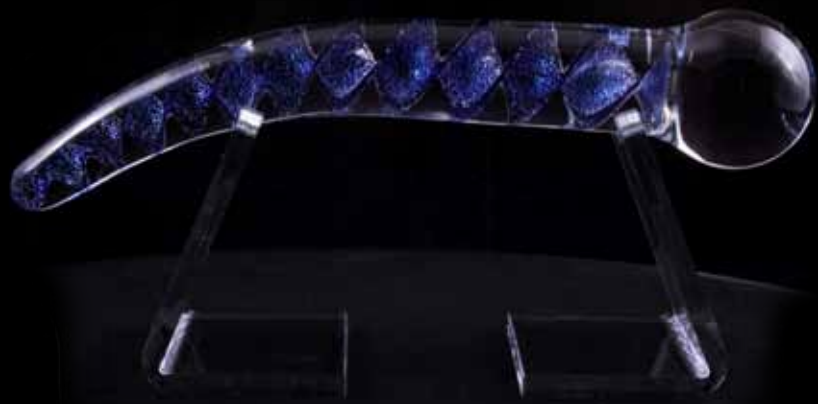

Piccante may be a dazzling blue, but it is most certainly spicy. The tip on this Diletto is small, a special comfort to many, then quickly thickens as it rounds a curve and ultimately concludes with 1.6 inch wide bulb. The beautiful coloring of blues and teals and whatever other hues it may reflect comes from the dichroic ribbon that twists through the core from narrow tip to just before the sphere. Observed from any angle, including the bulbous end, the brilliance shows through.

Weight: 7.6 oz (210 grams) - Length: 8.25 in (21 cm)
Circ. (min/max): 2 in (5.1 cm) / 5 in (12.7 cm)
MSRP: \$139.99 USD / CAD

Sorento

Sorento's tapered head shrinks back only slightly to a straight shaft covered in large, subtle bumps. Through the core of the pink shaft, blue and white twisted filigrana ribbon dances in every direction as it reflects through the bumpy texture. A hilt at the end changes the landscape with a flared stop, then the shaft then continues. This second shaft is smooth and infused with stunning blue and teal twisted dichroic ribbon all the way to the rounded tip. You will want to display this Diletto and challenge those who admire it to believe it is what it is.

Weight: 12.6 oz (355 grams) - Length: 10 in (25.4 cm)
Circ. (min/max): 3.5 in (8.9 cm) / 5.5 in (14 cm)
MSRP: \$189.99 USD / CAD

Sapphire

Sapphire sparkles from one end to the other, part smooth, part bulbous, part textured, all euphoria. The torpedo tip is accented by tiny internal pockets that catch the light and tease the eye. Two spheres follow the tip, the first with a few gentle grooves around the globe. The shaft is twisted on itself to create a dazzling texture. A significant bulb at the base shows off a beautiful flower implosion easily seen from the side or end.

Weight: 10.6 oz (300 grams)

Length: 9 in (22.9 cm)

Circ. (min/max): 3.25 in (8.3 cm) / 5 in (12.7 cm)

MSRP: \$129.99 USD / CAD

Spirale

Spirale stimulates in every moment, from end to end and never gives up. It begins with a small bubble tip that quickly gives way to a 1 1/4 inch wide shaft perfectly curved across 12 full inches ending in a subtle, smooth hand hold. The beauty of Spirale is found in the diamond twist that makes it glitter and creates the allure for those who crave never ending texture, against the body, and within.

Weight: 12.4 oz (350 grams)

Length: 12 in (30.5 cm)

Circ. (min/max): 2.75 in (7 cm) / 4 in (10.2 cm)

MSRP: \$169.99 USD / CAD

Stallone

Stallone is a substantial Diletto with an extraordinary attitude not soon forgotten. The teardrop tip appears typical until it collides with 4 large swells immediately behind. The first two are the same diameter as the crown, while the 3rd and 4th increase slightly in size. The curved shaft appears to be a handle that ends with a slightly larger bulb, but don't be fooled. Stallone inspires from both directions when put to full practice.

Begin with a little restraint, simply pulling Stallone's significant swells against the body. Feel the frictionless but repeated soft whump against anticipating nerves. Penetrate slowly and savor the crown, then each sensual burst that follows as the swells each pass deeper and the mass of Stallone makes for a more substantial feeling than expected. Then withdraw and feel it repeat over and over as long as you can bear. The last swell: Is that the end, or another, bigger bulb to be experienced? You chose in the moment. Embrace a moment of change by turning Stallone around to let that sphere on the end of the handle find its mark, and it becomes a handle no more.

Weight: 13.6 oz (385 grams)

Length: 11.25 in (28.6 cm)

Circ. (min/max): 3 in (7.6 cm) / 5.25 in (13.3 cm)

MSRP: \$129.99 USD / CAD

Flore

Flore is a bedroom essential for those who are even the slightest bit curious. Its 1.6 inch wide tapered bulb quickly narrows to a 1-inch width and is followed by a flared base. A close look at the tip reveals the reflection of a treasure hidden within; Flore's glass flower, for which it was named, pressed into the base of the plug.

Weight: 5.4 oz (155 grams)

Length: 3 in (7.6 cm)

Circ. (min/max): 3.25 in (8.3 cm) / 5 in (12.7 cm)

MSRP: \$89.99 USD / CAD

Fresa

Fresa is absolutely unique and so beautiful that you're likely to forget its purpose to begin with. The top half of this Diletto begins from a narrow point and swells out to 1.6 inches before quickly graduating back to just over 1 inch (think moan and then a gasp). A second bulb swells again a little smaller than the top and shrinks again to a short shaft of 1 inch wide just above a wider flanged base. The mesmerizing effect of this Diletto comes from the dichroic swirl that starts in a rich blue background base and stretches all the way to the tip. No matter which angle you stare from, Fresa inspires differently every time.

Weight: 8.4 oz (235 grams)

Length: 5 in (12.7 cm)

Circ. (min/max): 3 in (7.6 cm) / 5 in (12.7 cm)

MSRP: \$119.99 USD / CAD

Caliente

Caliente inspires curiosity in those who are not familiar with this form of Glass Diletto, and deep tingling to those who are. The scatter dichroic head on Caliente is tapered with groves that run parallel to the body. Right behind is a narrower shaft with small, non-symmetrical bumps. Then the familiarity ends with a wide flared base featuring small, top facing bulges and a handle that is offset? Yes, this piece is experienced just as its shape suggests.

Weight: 9 oz (255 grams)
Length: 4 in (10.2 cm) - (insertable depth)
Circ. (min/max): 3.5 in (8.9 cm) / 4.75 in (12.1 cm)
MSRP: \$169.99 USD / CAD

Bola

Bola's slightly tapered head is accented by stunning scatter dichroic against a blue background, distinctly different but visible from both the side and tip. With a similar diameter of just under 1 1/2 inches, but of varied length, two swells of crystal clear glass follow right behind. Bola is finished with a substantial flat base and a small handle on the underside. Confused? Bola suffers from the most delightful split personality not entirely sure which purpose it favors most.

Weight: 12.4 oz (350 grams)
Length: 4.5 in (11.4 cm) (insertable length)
Circ. (min/max): 3.5 in (8.9 cm) / 4.5 in (11.4 cm)
MSRP: \$119.99 USD / CAD

Packaging

A Love Style padded Diletto pouch is included with every Glass Diletto. Pouches are not available separately. The simple, stylish Love Style boxes, with magnetic closure, are perfect for retail display and are retained by most customers who acquire them. Silver box end labels identify Love Style sku, style name, and MSRP. The same label is also temporarily affixed to the padded pouch. White box bottom labels identify sku, name, MSRP, and include a UPC Bar Code. Inside the bottom of the box is a label to consumers providing advice regarding warranty and basic care.

Warranty

Love Style Glass Diletto's are warranted for life against any defects, but moreover, against any damage whatsoever by any cause, with no questions asked. Love Style accommodates ALL warranty claims directly with consumers to simplify the process for consumers and retailers alike. Visit the Love Style Web site for further warranty details.
